BIG FIRE IN CHICAGO BUSINESS DISTRICT

Property Valued at Over One
Million Dollars Burned.

BLAZE IN A PACKING PLANT

Causes Loss in Kansas City, Kan., Es-
timated at About Five Hundred
Thousand Dollars—Intense Heat Im-
pedes Work of Firemen.

Chicago, Jan. 29.—The third disas-
trous fire in the business district of
the city in as many days caused a
loss estimated at \$1,200,000 in the al-
most complete destruction of the build-
ing at 144 Wabash avenue, occupied
by Alfred Peats & Co., dealers in
wallpaper, the building adjoining it on
the south, occupied by John A. Colby
& Sons, furniture dealers, and that in
the rear occupied by the millinery
firm of Edson Keith & Co. Those to
the north and south of the Keith
building, occupied by Gage Bros. &
Co. and Theodore Ascher & Co., mil-
linery firms, were damaged by fire
and water. The fire started in the
engine room of the Peats building and
raged for three hours. Street car
lines throughout the downtown dis-
trict and the elevated lines were tied
up, and theater goers were delayed,
many of them more than an hour, in
reaching the playhouses. The work
of the firemen was witnessed by at
least 15,000 persons who, attracted by
the glare which could be seen for
miles, thronged the streets in spite
of the cold. It was the second time
this year that the record of the fire
department for last year—the confin-
ing of the flames to the building in
which they originated—had been bro-
ken, the first instance being the par-
tial destruction early Monday morn-
ing of the Mayer building and the
Florence on Adams street near Clark
street.

Many basements in Wabash and
Michigan avenues were flooded by wa-
ter used in fighting the fire, the dam-
age from this source being estimated
at \$75,000. A breakdown of part of
the fire apparatus gave the flames a
fresh start, but additional engines
were sent in to take the place of dis-
abled machines and the flames were
quickly gotten under control again.

PACKING PLANT DAMAGED.

Fire at Kansas City, Kan., Causes
Heavy Property Loss.

Kansas City, Mo., Jan. 29.—Fire of
unknown origin started in the canning
department on the second floor of one
of the twin main buildings of the 27-
000,000 packing plant of Nelson Morris
& Co., on the Kaw river in Kansas
City, Kan., threatened destruction of
the entire plant and caused a loss es-
timated at \$500,000 before it was con-
trolled. All effort to save the east
main building, in which the fire
started, and the box factory was
abandoned within a half hour after
the flames were discovered, and the
firemen devoted themselves to the
work of saving the other buildings.
The building in which the fire started
contained the canning department,
coolers, dressing rooms, wholesale de-
partment and the killing beds, and the
contents supplied the fire with fuel
which made the flames difficult to com-
bat. The fire had gained great head-
way before the fire department ar-
rived, and the heat was so intense
that it was impossible for the firemen
to make any progress in checking it
except to prevent its spreading. The
box factory in the rear of the main
buildings was entirely destroyed. The
flames spread also to the cattle chutes,
many of which were burned.

The other main building contained
the general offices and the engine
room and much salvage from the
burned building was carried into it.

Edwin Mays Discharged.

Portland, Ore., Jan. 29.—The prose-
cution finished its case in the Hall-
Mays conspiracy trial in the federal
court and Prosecutor F. J. Heney
moved to dismiss the action against
Defendant Edwin Mays. The prosecu-
tor explained that there was not suf-
ficient evidence brought out against
Mays, so the latter was exonerated
and discharged. Hall is now standing
the brunt of the prosecution.

Minnesota Woman Burned to Death.

Crookston, Minn., Jan. 29.—Mrs. Al-
fred Jance of Fisher died at that place
as the result of burns which she re-
ceived in her home there. Mrs. Jance
was attempting to make the soft coal
fire in her kitchen stove burn better
and poured kerosene on the smoulder-
ing fire. She was instantly enveloped
in flames which came from the explo-
sion of the kerosene gas and the coal
gas mixing.

INTERNATIONAL MARRIAGES

Denounced by Congressman McGavin
of Illinois.

Washington, Jan. 29.—National polit-
ics, international marriages and gov-
ernment expenditures formed the
themes of discussion in the house of
representatives. Incidentally it was
the longest sitting of the house this
session. The urgent deficiency bill
was up for consideration, but in sev-
eral instances it was ignored under
the license of general debate.

The presence of William J. Bryan
in the lobby of the house furnished in-
spiration to Mr. Wallace of Arkansas
for a vigorous speech in which, while
admitting that Mr. Bryan had made
mistakes and had been charged with
talking too much, he said that the
Nebraskan was worthy the honor and
suffrage of all the states.

International marriages of American
heiresses to titled foreigners were de-
nounced by Mr. McGavin of Illinois.
His remarks evoked applause and
laughter.

No amendments of any consequence
were made to the urgent deficiency
bill and it was still pending when the
house adjourned.

FATAL LOVERS' QUARREL.

Girl Kills Her Lover and He Shoots
Her as He Falls.

Pittsburg, Jan. 29.—A lovers' quar-
rel at Ambridge, a new town estab-
lished by the American Bridge com-
pany seventeen miles northwest of
here, ended in the death of both, each
inflicting a fatal wound upon the other.
The victims were Mary Cozzini,
eighteen years old and strikingly beau-
tiful, and Dominic Polcina, twenty-
five years old. Their courtship began
in Italy and he came to America three
years ago to prepare a home, sending
for the girl last October. Polcina is
said to have been jealous almost from
the day of her arrival, and when she
delayed the wedding from time to
time he became frantic. Finally he
visited the girl at the home of her
sister. They talked a few minutes
and the girl fled from the kitchen to
her own room on the third floor, lock-
ing herself in. Polcina followed and
broke open the door and a struggle
followed. An instant later there was
a shriek and a heavy body fell. It was
that of Polcina. A delicate, keen-
edged knife the girl was known to
have kept in her room was found near
him. The blade had been thrust into
his ear, piercing his brain.

Just as he fell Polcina fired a shot
from his revolver and the bullet en-
tered the girl's side. She ran down
stairs and fell dead on the kitchen
floor. Others in the house rushed to
the upstairs room, where Polcina died
just after they reached him.

ARCHITECT'S ASSISTANT.

Testifies in Capitol Graft Case at Har-
risburg, Pa.

Harrisburg, Pa., Jan. 29.—The ap-
pearance of Stanford B. Lewis, active
assistant of Architect James M. Hus-
ton during the construction and fur-
nishing of the capitol, as a witness
for the commonwealth at the trial of
the capitol prosecutions in the Dauphin
county court tends to confirm the
rumor that Huston has an understand-
ing with the commonwealth and will
be one of its witnesses. Lewis was
called to identify the plans and speci-
fications prepared by Huston for the
furnishings of the capitol and also to
explain the "qualities plan" upon
which orders were given at various
times for furnishings. He was cross-
examined by P. F. Rothelmer of coun-
sel for Sanderson, and was on the
stand when court adjourned for the
day. Lewis is under indictment on
two charges of conspiracy in connec-
tion with the alleged capitol frauds.

Huston's brother, the Rev. Samuel
C. Huston, came here from Philadel-
phia on a subpoena issued by the com-
monwealth and will be called as a wit-
ness. The architect is still here, but
was not in court and will probably
stay away until he is called as a wit-
ness. Counsel for the commonwealth
still declined to discuss the action of
the architect in asking for a separate
trial or to say whether he will be a
witness for the prosecution.

Disorders in Persia.

Teheran, Jan. 29.—Renewed con-
flicts between the constitutionalists
and reactionaries have broken out at
Tabriz and twenty persons have been
reported killed. There have also been
disorders at Yazd.

One Killed and Two Injured.

Clinton, Ia., Jan. 29.—George Bar-
low was killed and two others were
probably fatally hurt when an Iowa
and Illinois train struck their buggy
at Princeton, Ia.

GRAFT IS SUGGESTED

Startling Intimations at Inquest
at Boyertown, Pa.

PROSECUTIONS MAY FOLLOW

State Factory Inspector Passed the
Edifice After the Owner Had Ordered
Fire Escapes From a Firm That He
Had Named.

Boyertown, Pa., Jan. 29.—Sugges-
tions of graft and admissions of neg-
lect, which, it is intimated, may result
in prosecutions, marked the opening
session of the inquest here in the hor-
ror at the Rhoades Opera House on
Jan. 13, when 169 persons lost their
lives.

It was brought out that the main
exit to the hall was blocked by the
box office and that the stairway and
the point of exit and entrance was
but three feet one inch in width, and
that Harry Fisher, the operator of the
stereopticon apparatus, had received
but two days' instructions in the
methods of handling the calcium light
and that he operated the machine in
public for the first time on that fatal
night.

In addition to this Dr. Thomas A.
Rhoades, the owner of the building,
declared that the building had been
inspected and passed by a state fac-
tory inspector after he "had given a
contract for fire escapes to a Reading
man." He added in reply to a pointed
question put by District Attorney
Dunn that the factory inspector told
him who he should buy his fire es-
capes from, that he placed the order
with the Reading contractor and that
the inspector passed the building.

It was learned from other testimony
that there were no aisles along the
walls and only two narrow aisles to
separate the seats into three divisions,
and that the chairs in the outside sec-
tions were not fastened to the floor,
so that they fell and caused many to
stumble and fall in their rush to get
out of the building. There were no
red lights to show where the fire exits
were and no doors through which to
reach the fire escape.

COMBINE AGAINST JOHNSON

Bryan and Hearst Said to Have
Formed a Compact.

St. Paul, Jan. 29.—Minnesota polit-
icians are greatly interested in a
story that came from New York to
the effect that William R. Hearst has
formed a compact with William J.
Bryan for the purpose of crushing
Governor Johnson's boom for presi-
dent. The local Johnson men say it
looks reasonable. Local Bryan men,
however, say it is a fabrication intend-
ed to injure Bryan.

The story includes the assertion
that Hearst will use his abundant
funds in financing a campaign to se-
cure a straight Bryan delegation from
this state, a delegation opposed to
Johnson. This is significant, if true,
for it will be remembered that in 1904
Hearst liberally financed the campaign
against Parker in this state, and it
was through this financial aid that the
fight for Hearst was carried to all
parts of the state. Those who remem-
ber the famous Democratic convention
at Duluth that year will remember
that there was a real fight in this
state.

The fight against Johnson this year
has not extended much beyond Min-
neapolis and Duluth, those two towns
being the only places where there is
real opposition. Throughout the rest
of the state the sentiment seems to
be for Johnson, and if Johnson does
not run, for Bryan.

Oil Tanks Burned.

San Luis Obispo, Cal., Jan. 29.—Fire
which was started in an oil tank be-
longing to the Union Oil company at
Port Hartford by a stroke of lightning,
burned for many hours, consuming,
with their contents, the tank which
was first set on fire and three others
belonging to the Standard Oil com-
pany. No other damage was done.
The loss is estimated at \$150,000.

Heavy Loss From Fire.

Indianapolis, Jan. 29.—Fire in the
Coburn warehouse destroyed the build-
ing and caused a loss estimated at
\$500,000. The Coburn warehouse was
one of the largest of its kind in the
Middle West. It contained store
rooms leased by local firms as well as
general shipping rooms which were
filled with goods.

Serious Famine in Lapland.

Stockholm, Jan. 29.—Serious famine
is prevalent in the iron district of
Northern Lapland. According to a
dispatch to Dagens Nyheter from
Kiruna, the inhabitants in the parish
of Velhelmina have gone to the ex-
treme of slaughtering dogs and cats
for food to prevent starvation.

We're Still Offering Coats and Furs at a Bargain

We have always given bargains in these garments at the end of
each season but we have never been so anxious to sell as we are
at this time. The result is a greater reduction, than ever before,
in our prices. We did not carry a single coat from last year into
this year and we MUST maintain this enviable record. So come
now if you want a bargain.

H. F. MICHAEL Co.

H. F. MICHAEL Co.

NO SCIENTIFIC EXPERTS CALLED

Jerome Ignores Scientific Tes-
timony in Thaw Case.

ALL EVIDENCE IS SUBMITTED

Attorney Littleton Will Next Begin
His Plea for the Acquittal of the De-
fendant—District Attorney's Action
Causes Much Speculation.

New York, Jan. 29.—With no at-
tempt on the part of the state to com-
bat with scientific testimony the claim
of insanity urged in behalf of Harry
K. Thaw, the taking of evidence in
the second hearing of the Madison
Square Garden murder trial ended.
Martin W. Littleton next will begin
his plea for the defendant, and is ex-
pected to occupy an entire day with
his summing up argument. District
Attorney Jerome will next speak. He
has promised to be brief and Justice
Dowling may hand the case over to
the jury on Thursday afternoon. The
court announced, however, that he
probably would not deliver his charge
until Friday morning.

Contrary to his policy of last year,
when he called nine experts on in-
sanity to the witness chair, Mr. Je-
rome this year utterly ignored the
scientific phase of the rebuttal case.
He produced several eyewitnesses to
the tragedy and several police officers
who handled Thaw the night of the
homicide and placed on record their
opinion that the defendant's acts and
manner were rational. Under agree-
ment of counsel the testimony given
by Abraham Hummel at the last trial
was read to the jury, and the Thaw
will was admitted in evidence with-
out further proof as to its custody
during the six months following the
shooting of Stanford White. The af-
idavit alleged to have been made by
Evelyn Nesbit in Hummel's office,
charging Thaw with cruelty and at-
tempting falsely to place the Nesbit
girl's downfall upon Stanford White,
also was admitted by Justice Dowling
and then the case, so far as testimony
was concerned, was at an end.

Mr. Jerome's elimination of expert
testimony from the rebuttal case oc-
casioned much talk. Based upon his
assertions of last year that Thaw was
an incurable paranoiac, rumor had it
that the prosecutor might not be dis-
pleased with a verdict of not guilty on
the ground of insanity with an ensuing
commitment of Harry Thaw to the
asylum for the criminal insane at
Matteawan. Throughout the trial,
however, Mr. Jerome has attempted
to belittle and discredit all testimony
having to do with Thaw's irrationality.

Merely Fits of Temper.

He has attempted to show that the
youthful outbursts of the defendant
were fits of temper which deserved a
"spanking," as he expressed it, rather
than scientific discussion. He has at-
tempted to discredit the outbreaks in
later life with the suggestion that they
were the result of too much drink and
nothing more. That the prosecutor
will ridicule the expert testimony is
generally agreed. Having no experts
of his own, he has a free hand in that
direction this year.

Mr. Jerome's latest move also frus-
trated a plan of the defense to call in
surrebuttal several of the experts who
testified against Thaw at his last trial,
but who, when Mr. Jerome switched

to the appointment of a lunacy com-
mission, made affidavits setting forth
the opinion that Thaw was so insane
as to be incapable of understanding
the nature of the proceedings against
him or of intelligently advising with
counsel.

Mr. Littleton, in his argument,
which is expected to be an eloquent
but straightforward presentation of
the facts, will contend that the prose-
cution has failed to shake the case of
insanity built up by the defense. He
will again call attention to the law
and the burden of proof it places up-
on the state in a case where insanity
is pleaded as a bar to responsibility
for a criminal act. He will contend
and will ask Justice Dowling to care-
fully instruct the jury on the point,
that once the defense has produced
evidence of insanity it becomes the
duty of the prosecution to remove
every reasonable doubt of insanity. In
other words, Mr. Littleton will ask for
an acquittal unless the jurors are con-
vinced that every reasonable doubt as
to Thaw being insane at the time of
committing the homicide has been re-
moved by the state's case. Mr. Lit-
tleton has made no claim of present
sanity for Thaw. In fact, the ex-
perts for the defense have testified
that in "manic-depressive" insanity,
the diagnosis now applied to Thaw's
condition of mind, the patient is very
apt to have attacks of increasing fre-
quency and violence.

Laundry Building Burned.

Detroit, Jan. 29.—The Parisian laun-
dry, a five-story brick building, was
gutted by fire. The blaze started
from the explosion of a gasoline stove
in a restaurant on the ground floor.
The loss on building and contents is
estimated at \$200,000. This does not
include losses of several tenants.

NEWS OF EVANS' FLEET.

Sent to Buenos Ayres by the Argen-
tine Admiral.

Buenos Ayres, Jan. 29.—Rear Ad-
miral Betheder, the minister of ma-
rine, received the following radiogram
from Admiral Hipolita Oliva, who is
in command of the Argentine squadron
ordered to meet the American battle-
ships and escort them down the coast:
"At 7 o'clock on the morning of
Jan. 26 we had the first radiographic
communication with the battleship
Connecticut, flagship of Rear Admiral
Evans, which we joined at 9:30 o'clock
at night. The Argentine vessels es-
corted the American squadron until
8:30 o'clock on Jan. 27, when flag sa-
lutes were exchanged with full cere-
monial. We left the American ves-
sels about 125 miles from Mar del
Plata.

"Rear Admiral Evans asked me to
transmit his thanks to the Argentine
government for having sent the naval
division to meet the American squad-
ron, and begged me to have transmit-
ted to the government at Washington
the radiogram sent separately."

Favor Bryan and Johnson.

Grand Forks, N. D., Jan. 29.—The
North Dakota Democratic state central
committee unanimously adopted a
resolution declaring for William Jen-
nings Bryan of Nebraska for president
and Governor John A. Johnson of
Minnesota for vice president.

ARRANGEMENT CONCLUDED

Reciprocity Treaty Between France
and America Signed.

Washington, Jan. 29.—The president
has issued a proclamation announcing
the conclusion of the Franco-Ameri-
can reciprocity arrangements drawn
under Section 3 of the Dingley act.
Under it America concedes a 20 per
cent abatement in duties on cham-
pagne and sparkling wines imported
into this country, and France confirms
the minimum tariff rate now accorded
American products. Other important
provisions are made, including the
creation of a commission to consider
possible amendments to the trade
regulations in France.

Accompanying the proclamation is
the text of an agreement just signed,
the feature of which, in addition to
the statement of new duties on cham-
pagne, is found in Article 1, which
reads as follows:

"It is agreed, on the part of the
French government, that the applica-
tion of the duties of the general tariff
to coffee, cocoa, chocolate, vanilla
and other food products known in the
French tariff law as "Denrees Colo-
niales de Consommation," except sug-
ar and its byproducts and tobacco
products of the United States, includ-
ing Porto Rico, shall be conditionally
suspended, and that the said products
shall be admitted into France and Al-
geria at the rates of the minimum tar-
iff or at the lowest rates applied to
the like products of any foreign origin.

"In addition, mineral oils from the
United States, and coming under the
decree of July 7, 1893, shall upon entry
into France and Algeria enjoy the
benefits of the lowest rates of duty.

"But it is expressly understood
that these concessions may be with-
drawn in the discretion of the presi-
dent of the French republic, when-
ever additional duties beyond those
now existing and which may be
deemed by him unjust to the com-
merce of France shall be imposed by
the United States on products of
France."

DIES TO SAVE HIS BOY.

New York Machinist Killed by a
Train.

New York, Jan. 29.—John Gladys, a
machinist, lost his life at Great Kills,
S. I., in saving that of his eleven-year-
old son. The boy and his father were
walking along the tracks of the Staten
Island Rapid Transit company when
the little fellow stepped directly in
front of a moving train. Seeing the
boy's peril Gladys rushed after him
and had pushed him out of danger,
but in doing so slipped on the icy
track and fell directly in the path of
the engine. The boy was unhurt.

Banana Ink.

"The banana furnishes us with ink,
with handkerchiefs, with wax, with
blackening, with excelsior, with oil, with
flour, with window cord, with
brushes."

The speaker, a banana planter from
Jamaica, paused and smiled.
"You don't believe me, do you?" he
said. "Yet truly the banana tree is a
wonderful thing. Every part of it
serves some good use. Thus the long
leaves make a fine excelsior. The
juice, being rich in tannin, furnishes
a good indelible ink and a good shoe
polish. The stems yield a fine quality
of hemp, and from this hemp there are
made lace handkerchiefs, cords and
ropes of all kinds, mats and brushes.
The oil is used in gilding. Of banana
flour, the flour ground from the dried
fruit, there is no use speaking—you are
too familiar with it."—Los Angeles
Times.

BIG FIRE IN CHICAGO BUSINESS DISTRICT

Property Valued at Over One Million Dollars Burned.

BLAZE IN A PACKING PLANT

Causes Loss in Kansas City, Kan., Estimated at About Five Hundred Thousand Dollars—Intense Heat Impedes Work of Firemen.

Chicago, Jan. 29.—The third disastrous fire in the business district of the city in as many days caused a loss estimated at \$1,200,000 in the almost complete destruction of the building at 144 Wabash avenue, occupied by Alfred Peats & Co., dealers in wallpaper, the building adjoining it on the south, occupied by John A. Colby & Sons, furniture dealers, and that in the rear occupied by the millinery firm of Edson Keith & Co. Those to the north and south of the Keith building, occupied by Gage Bros. & Co. and Theodore Ascher & Co., millinery firms, were damaged by fire and water. The fire started in the engine room of the Peats building and raged for three hours. Street car lines throughout the downtown district and the elevated lines were tied up, and theater goers were delayed, many of them more than an hour, in reaching the playhouses. The work of the firemen was witnessed by at least 15,000 persons who, attracted by the glare which could be seen for miles, thronged the streets in spite of the cold. It was the second time this year that the record of the fire department for last year—the confining of the flames to the building in which they originated—had been broken, the first instance being the partial destruction early Monday morning of the Mayer building and the hotel Florence on Adams street near Clark street.

Many basements in Wabash and Michigan avenues were flooded by water used in fighting the fire, the damage from this source being estimated at \$75,000. A breakdown of part of the fire apparatus gave the flames a fresh start, but additional engine were sent in to take the place of disabled machines and the flames were quickly gotten under control again.

PACKING PLANT DAMAGED.

Fire at Kansas City, Kan., Causes Heavy Property Loss.

Kansas City, Mo., Jan. 29.—Fire of unknown origin started in the canning department on the second floor of one of the twin main buildings of the \$7,000,000 packing plant of Nelson Morris & Co., on the Kaw river in Kansas City, Kan., threatened destruction of the entire plant and caused a loss estimated at \$500,000 before it was controlled. All effort to save the east main building, in which the fire started, and the box factory was abandoned within a half hour after the flames were discovered, and the firemen devoted themselves to the work of saving the other buildings. The building in which the fire started contained the canning department, coolers, dressing rooms, wholesale department and the killing beds, and the contents supplied the fire with fuel which made the flames difficult to combat. The fire had gained great headway before the fire department arrived, and the heat was so intense that it was impossible for the firemen to make any progress in checking it except to prevent its spreading. The box factory in the rear of the main buildings was entirely destroyed. The flames spread also to the cattle chutes, many of which were burned.

The other main building contained the general offices and the engine room and much salvage from the burned building was carried into it.

Edwin Mays Discharged.

Portland, Ore., Jan. 29.—The prosecution finished its case in the Hall-Mays conspiracy trial in the federal court and Prosecutor F. J. Heney moved to dismiss the action against Defendant Edwin Mays. The prosecutor explained that there was not sufficient evidence brought out against Mays, so the latter was exonerated and discharged. Hall is now standing the brunt of the prosecution.

Minnesota Woman Burned to Death.

Crookston, Minn., Jan. 29.—Mrs. Alfred Jance of Fisher died at that place as the result of burns which she received in her home there. Mrs. Jance was attempting to make the soft coal fire in her kitchen stove burn better and poured kerosene on the smoldering fire. She was instantly enveloped in flames which came from the explosion of the kerosene gas and the coal gas mixing.

INTERNATIONAL MARRIAGES

Denounced by Congressman McGavin of Illinois.

Washington, Jan. 29.—National politics, international marriages and government expenditures formed the themes of discussion in the house of representatives. Incidentally it was the longest sitting of the house this session. The urgent deficiency bill was up for consideration, but in several instances it was ignored under the license of general debate.

The presence of William J. Bryan in the lobby of the house furnished inspiration to Mr. Wallace of Arkansas for a vigorous speech in which, while admitting that Mr. Bryan had made mistakes and had been charged with talking too much, he said that the Nebraskan was worthy the honor and suffrage of all the states.

International marriages of American heiresses to titled foreigners were denounced by Mr. McGavin of Illinois. His remarks evoked applause and laughter.

No amendments of any consequence were made to the urgent deficiency bill and it was still pending when the house adjourned.

FATAL LOVERS' QUARREL.

Girl Kills Her Lover and He Shoots Her as He Falls.

Pittsburg, Jan. 29.—A lovers' quarrel at Ambridge, a new town established by the American Bridge company seventeen miles northwest of here, ended in the death of both, each inflicting a fatal wound upon the other. The victims were Mary Cozzini, eighteen years old and strikingly beautiful, and Dominic Polcina, twenty-five years old. Their courtship began in Italy and he came to America three years ago to prepare a home, sending for the girl last October. Polcina is said to have been jealous almost from the day of her arrival, and when she delayed the wedding from time to time he became frantic. Finally he visited the girl at the home of her sister. They talked a few minutes and the girl fled from the kitchen to her own room on the third floor, locking herself in. Polcina followed and broke open the door and a struggle followed. An instant later there was a shriek and a heavy body fell. It was that of Polcina. A delicate, keen-edged knife the girl was known to have kept in her room was found near him. The blade had been thrust into his ear, piercing his brain.

Just as he fell Polcina fired a shot from his revolver and the bullet entered the girl's side. She ran down stairs and fell dead on the kitchen floor. Others in the house rushed to the upstairs room, where Polcina died just after they reached him.

ARCHITECT'S ASSISTANT.

Testifies in Capitol Graft Case at Harrisburg, Pa.

Harrisburg, Pa., Jan. 29.—The appearance of Stanford B. Lewis, active assistant of Architect James M. Huston during the construction and furnishing of the capitol, as a witness for the commonwealth at the trial of the capitol prosecutions in the Dauphin county court tends to confirm the rumor that Huston has an understanding with the commonwealth and will be one of its witnesses. Lewis was called to identify the plans and specifications prepared by Huston for the furnishings of the capitol and also to explain the "qualities plan" upon which orders were given at various times for furnishings. He was cross-examined by P. F. Rothermel of counsel for Sanderson, and was on the stand when court adjourned for the day. Lewis is under indictment on two charges of conspiracy in connection with the alleged capitol frauds.

Huston's brother, the Rev. Samuel C. Huston, came here from Philadelphia on a subpoena issued by the commonwealth and will be called as a witness. The architect is still here, but was not in court and will probably stay away until he is called as a witness. Counsel for the commonwealth still declined to discuss the action of the architect in asking for a separate trial or to say whether he will be a witness for the prosecution.

Disorders in Persia.

Teheran, Jan. 29.—Renewed conflicts between the constitutionalists and reactionaries have broken out at Tabriz and twenty persons have been reported killed. There have also been disorders at Yezd.

One Killed and Two Injured.

Clinton, Ia., Jan. 29.—George Barlow was killed and two others were probably fatally hurt when an Iowa and Illinois train struck their buggy at Princeton, Ia.

GRAFT IS SUGGESTED

Startling Intimations at Inquest at Boyertown, Pa.

PROSECUTIONS MAY FOLLOW

State Factory Inspector Passed the Edifice After the Owner Had Ordered Fire Escapes From a Firm That He Had Named.

Boyertown, Pa., Jan. 29.—Suggestions of graft and admissions of neglect, which, it is intimated, may result in prosecutions, marked the opening session of the inquest here in the horror at the Rhoades Opera House on Jan. 13, when 169 persons lost their lives.

It was brought out that the main exit to the hall was blocked by the box office and that the stairway and the point of exit and entrance was but three feet one inch in width, and that Harry Fisher, the operator of the stereopticon apparatus, had received but two days' instructions in the methods of handling the calcium light and that he operated the machine in public for the first time on that fatal night.

In addition to this Dr. Thomas A. Rhoades, the owner of the building, declared that the building had been inspected and passed by a state factory inspector after he "had given a contract for fire escapes to a Reading man." He added in reply to a pointed question put by District Attorney Dunn that the factory inspector told him who he should buy his fire escapes from, that he placed the order with the Reading contractor and that the inspector passed the building.

It was learned from other testimony that there were no aisles along the walls and only two narrow aisles to separate the seats into three divisions, and that the chairs in the outside sections were not fastened to the floor, so that they fell and caused many to stumble and fall in their rush to get out of the building. There were no red lights to show where the fire exits were and no doors through which to reach the fire escape.

COMBINE AGAINST JOHNSON

Bryan and Hearst Said to Have Formed a Compact.

St. Paul, Jan. 29.—Minnesota politicians are greatly interested in a story that came from New York to the effect that William R. Hearst has formed a compact with William J. Bryan for the purpose of crushing Governor Johnson's boom for president. The local Johnson men say it looks reasonable. Local Bryan men, however, say it is a fabrication intended to injure Bryan.

The story includes the assertion that Hearst will use his abundant funds in financing a campaign to secure a straight Bryan delegation from this state, a delegation opposed to Johnson. This is significant, if true, for it will be remembered that in 1904 Hearst liberally financed the campaign against Parker in this state, and it was through this financial aid that the fight for Hearst was carried to all parts of the state. Those who remember the famous Democratic convention at Duluth that year will remember that there was a real fight in this state.

The fight against Johnson this year has not extended much beyond Minneapolis and Duluth, those two towns being the only places where there is real opposition. Throughout the rest of the state the sentiment seems to be for Johnson, and if Johnson does not run, for Bryan.

Oil Tanks Burned.

San Luis Obispo, Cal., Jan. 29.—Fire which was started in an oil tank belonging to the Union Oil company at Port Hartford by a stroke of lightning, burned for many hours, consuming, with their contents, the tank which was first set on fire and three others belonging to the Standard Oil company. No other damage was done. The loss is estimated at \$150,000.

Heavy Loss From Fire.

Indianapolis, Jan. 29.—Fire in the Coburn warehouse destroyed the building and caused a loss estimated at \$500,000. The Coburn warehouse was one of the largest of its kind in the Middle West. It contained store rooms leased by local firms as well as general shipping rooms which were filled with goods.

Serious Famine in Lapland.

Stockholm, Jan. 29.—Serious famine is prevalent in the iron district of Northern Lapland. According to a dispatch to Dagens Nyheter from Kiruna, the inhabitants in the parish of Velhelmina have gone to the extreme of slaughtering dogs and cats for food to prevent starvation.

We're Still Offering Coats and Furs at a Bargain

We have always given bargains in these garments at the end of each season but we have never been so anxious to sell as we are at this time. The result is a greater reduction, than ever before, in our prices. We did not carry a single coat from last year into this year and we MUST maintain this enviable record. So come now if you want a bargain.

H. F. MICHAEL Co.

H. F. MICHAEL Co.

NO SCIENTIFIC EXPERTS CALLED

Jerome Ignores Scientific Testimony in Thaw Case.

ALL EVIDENCE IS SUBMITTED

Attorney Littleton Will Next Begin His Plea for the Acquittal of the Defendant—District Attorney's Action Causes Much Speculation.

New York, Jan. 29.—With no attempt on the part of the state to combat with scientific testimony the claim of insanity urged in behalf of Harry K. Thaw, the taking of evidence in the second hearing of the Madison Square Garden murder trial ended. Martin W. Littleton next will begin his plea for the defendant, and is expected to occupy an entire day with his summing up argument. District Attorney Jerome will next speak. He has promised to be brief and Justice Dowling may hand the case over to the jury on Thursday afternoon. The court announced, however, that he probably would not deliver his charge until Friday morning.

Contrary to his policy of last year, when he called nine experts on insanity to the witness chair, Mr. Jerome this year utterly ignored the scientific phase of the rebuttal case. He produced several eyewitnesses to the tragedy and several police officers who handled Thaw the night of the homicide and placed on record their opinion that the defendant's acts and manner were rational. Under agreement of counsel the testimony given by Abraham Hummel at the last trial was read to the jury, and the Thaw will be admitted in evidence without further proof as to its custody during the six months following the shooting of Stanford White. The affidavit alleged to have been made by Evelyn Nesbit in Hummel's office, charging Thaw with cruelty and attempting falsely to place the Nesbit girl's downfall upon Stanford White, also was admitted by Justice Dowling and then the case, so far as testimony was concerned, was at an end.

Mr. Jerome's elimination of expert testimony from the rebuttal case occasioned much talk. Based upon his assertions of last year that Thaw was an incurable paranoiac, rumor had it that the prosecutor might not be displeased with a verdict of not guilty on the ground of insanity with an ensuing commitment of Harry Thaw to the asylum for the criminal insane at Matteawan. Throughout the trial, however, Mr. Jerome has attempted to belittle and discredit all testimony having to do with Thaw's irrationality.

Merely Fits of Temper.

He has attempted to show that the youthful outbursts of the defendant were fits of temper which deserved a "spanking," as he expressed it, rather than scientific discussion. He has attempted to discredit the outbreaks in later life with the suggestion that they were the result of too much drink and nothing more. That the prosecutor will ridicule the expert testimony is generally agreed. Having no experts of his own, he has a free hand in that direction this year.

Mr. Jerome's latest move also frustrated a plan of the defense to call in surrebuttal several of the experts who testified against Thaw at his last trial, but who, when Mr. Jerome switched

to the appointment of a lunacy commission, made affidavits setting forth the opinion that Thaw was so insane as to be incapable of understanding the nature of the proceedings against him or of intelligently advising with counsel.

Mr. Littleton, in his argument, which is expected to be an eloquent but straightforward presentation of the facts, will contend that the prosecution has failed to shake the case of insanity built up by the defense. He will again call attention to the law and the burden of proof it places upon the state in a case where insanity is pleaded as a bar to responsibility for a criminal act. He will contend and will ask Justice Dowling to carefully instruct the jury on the point, that once the defense has produced evidence of insanity it becomes the duty of the prosecution to remove every reasonable doubt of insanity. In other words, Mr. Littleton will ask for an acquittal unless the jurors are convinced that every reasonable doubt as to Thaw being insane at the time of committing the homicide has been removed by the state's case. Mr. Littleton has made no claim of present sanity for Thaw. In fact, the experts for the defense have testified that in "manic-depressive" insanity, the diagnosis now applied to Thaw's condition of mind, the patient is very apt to have attacks of increasing frequency and violence.

Laundry Building Burned.

Detroit, Jan. 29.—The Parisian laundry, a five-story brick building, was gutted by fire. The blaze started from the explosion of a gasoline stove in a restaurant on the ground floor. The loss on building and contents is estimated at \$200,000. This does not include losses of several tenants.

NEWS OF EVANS' FLEET.

Sent to Buenos Ayres by the Argentine Admiral.

Buenos Ayres, Jan. 29.—Rear Admiral Betheder, the minister of marine, received the following radiogram from Admiral Hipolito Oliva, who is in command of the Argentine squadron ordered to meet the American battleships and escort them down the coast: "At 7 o'clock on the morning of Jan. 26 we had the first radiographic communication with the battleship Connecticut, flagship of Rear Admiral Evans, which we joined at 9:30 o'clock at night. The Argentine vessels escorted the American squadron until 8:30 o'clock on Jan. 27, when flag salutes were exchanged with full ceremonial. We left the American vessels about 125 miles from Mar del Plata."

"Rear Admiral Evans asked me to transmit his thanks to the Argentine government for having sent the naval division to meet the American squadron, and begged me to have transmitted to the government at Washington the radiogram sent separately."

Favor Bryan and Johnson.

Grand Forks, N. D., Jan. 29.—The North Dakota Democratic state central committee unanimously adopted a resolution declaring for William Jennings Bryan for president and Governor John A. Johnson of Minnesota for vice president.

ARRANGEMENT CONCLUDED

Reciprocity Treaty Between France and America Signed.

Washington, Jan. 29.—The president has issued a proclamation announcing the conclusion of the Franco-American reciprocity arrangements drawn under Section 3 of the Dingley act. Under it America concedes a 20 per cent abatement in duties on champagne and sparkling wines imported into this country, and France confirms the minimum tariff rate now accorded American products. Other important provisions are made, including the creation of a commission to consider possible amendments to the trade regulations in France.

Accompanying the proclamation is the text of an agreement just signed, the feature of which, in addition to the statement of new duties on champagne, is found in Article 1, which reads as follows:

"It is agreed, on the part of the French government, that the application of the duties of the general tariff to coffee, cocoa, chocolate, vanilla and other food products known in the French tariff law as 'Denrees Coloniales de Consommation,' except sugar and its byproducts and tobacco products of the United States, including Porto Rico, shall be conditionally suspended, and that the said products shall be admitted into France and Algeria at the rates of the minimum tariff or at the lowest rates applied to the like products of any foreign origin."

"In addition, mineral oils from the United States, and coming under the decree of July 7, 1893, shall upon entry into France and Algeria enjoy the benefits of the lowest rates of duty."

"But it is expressly understood that these concessions may be withdrawn in the discretion of the president of the French republic, whenever additional duties beyond those now existing and which may be deemed by him unjust to the commerce of France shall be imposed by the United States on products of France."

Following the statement of the champagne duties is a paragraph similar to the above, except that it authorizes the president to withdraw concessions to France in case increased duties are levied.

DIES TO SAVE HIS BOY.

New York Machinist Killed by a Train.

New York, Jan. 29.—John Gladys, a machinist, lost his life at Great Kills, S. I., in saving that of his eleven-year-old son. The boy and his father were walking along the tracks of the Staten Island Rapid Transit company when the little fellow stepped directly in front of a moving train. Seeing the boy's peril Gladys rushed after him and had pushed him out of danger, but in doing so slipped on the icy track and fell directly in the path of the engine. The boy was unhurt.

Banana Ink.

"The banana furnishes us with ink, with handkerchiefs, with wax, with blacking, with excelsior, with oil, with flour, with window cord, with brushes."

The speaker, a banana planter from Jamaica, paused and smiled. "You don't believe me, do you?" he said. "Yet truly the banana tree is a wonderful thing. Every part of it serves some good use. Thus the long leaves make a fine excelsior. The juice, being rich in tannin, furnishes a good indelible ink and a good shoe polish. The stems yield a fine quality of hemp, and from this hemp there are made lace handkerchiefs, cords and ropes of all kinds, mats and brushes. The oil is used in gliding. Of banana flour, the flour ground from the dried fruit, there is no use speaking—you are too familiar with it."—Los Angeles Times.

SPELLING NAMES.

There Was No Doubt About "Hannah" When the English Lady Finished.

A bygone generation witnessed an acrimonious controversy in the Irish family of O'Connor in County Roscommon as to the right of any branch of the ancient race to spell the name thus—with one "n." That right, it was maintained, was held only by the O'Connor Don as head of the house. So prolonged was the contest between the partisans of the O'Connor and O'Connors that it was called the "N-less" (standing for "endless") correspondence. Finally the question was referred to Sir J. Bernard Burke, the Ulster king of arms. His decision coincided with a decision in a certain other matter—namely, that much might be said on either side. The two disputing families had a common origin, a king of Connaught, and could with propriety and in accordance with tradition spell the name one way or the other. Fortified by this "award," the two families have continued to spell their name with one "n" up to the present hour.

Equally firm on the question as to how his name should be spelled was the witness in a case tried in the king's bench a few years ago. Asked his name, his prompt reply was "John 'Awkins." "Do you," queried counsel, "spell your name with or without an H?" The emphatic answer was, "J-o-h-n." As a rule, however, as we have said, variety in the spelling of the names of people, as in that of the names of places, owes its origin to people not being so clear as was our friend regarding how a name should be spelled.

Two stories in illustration of this occur to us. In the first Mrs. Quiverful was having christened her latest baby. The old minister was a little deaf. "What name did you say?" he queried. "I said," replied the mother, with some asperity, "Hannah." "Do you," said the other, "mean Anna or Hannah?" "Look 'ere," exclaimed the now thoroughly exasperated lady, "I won't be hexamined in this way. I mean 'Haith-bay-hen-hen-hay-haith'—Hannah!"

The second incident to which we refer is this. Here also there was "a lady in the case." She was on an errand, and she had to deal with the name of another party. In brief, she had bought a pair of sleeve links for her fiancée when the shopman asked, "Any initials, miss?" The rest may be stated thus:

She—Oh, yes; I forgot. Engrave a "U" upon them for his first name. Shopman—Pardon me, is it Urah or Ulysses? Names with "U" are rare, you know.

She (proudly)—His name is Eugene.—London Globe.

LIGHTS FOR THE BUSINESS DISTRICT

City Council is Making Preparations to Furnish Lights During Shut Down

TWO PLANS ARE IN VIEW

Will Secure Current of Northern Pacific or Use Car Line Power Plant

Alderman Baker authorizes THE DISPATCH to assure the business men of Brainerd that arrangements will be made to furnish the business houses with light during the shut down at the dam. It will therefore be unnecessary for any business men to go to the expense of providing other methods of lighting their places of business.

Negotiations are under way to secure the necessary current from the Northern Pacific shops to take care of the down town district, including day current for motors. If this cannot be done one of the dynamos will be moved to the power house of the old street car line, near the dam, which is owned by Mr. C. N. Parker, and his steam power plant, which is standing there complete, will be utilized to furnish power for the dynamos.

This action on the part of the city council is wise and will be appreciated. While it is inconvenient to use kerosene for the private houses there is no such outlay involved nor such loss suffered as when the business section is deprived of lights and those dependent on motors for power are deprived of current. The arrangements will include current during the day for the benefit of the users of motors.

CONFIRMED PROOF

Residents of Brainerd Cannot Doubt What has Been Twice Proved

In gratitude for complete relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Brainerd, who so testified years ago, now say their cures were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Brainerd kidney sufferers.

James Parker, carpenter, of 124 N. E. 2nd Ave., Brainerd, Minn., says: "Every winter since I had the grippe I was unable to shake off its effects. My back commenced to pain me across the kidneys with a numb sort of aching which I felt always over the lame spot, even when lying in bed. I was always troubled with headache which I think arose from my kidneys. I got a box of Doan's Kidney Pills and used them. Since then I have been in much better health, have no more attacks of headache, no more backache and I regard it as quite wonderful that any remedy could bring about such a change."

On October 18, 1904, six years after Mr. Parker made the above statement, the testimony was confirmed by Mrs. Parker, she said: "Mr. Parker's statement was true in every particular, and we both feel that Doan's Kidney Pills can be relied upon to cure every form of kidney trouble. We are always glad to advise sufferers to go to H. P. Dunn's drug store for Doan's Kidney Pills and give them a trial."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

THE "TUPPENCE" HABIT.

It Has a Firm Grip on London and Its Inhabitants.

Tuppence—meaning, of course, two-pence and equal to the sum of 4 cents in United States currency—is the dominating sum in London. It is as much an institution as the war debt, beer or the game of cricket. Wherever you go, whatever you do, whatever you sell or whenever you open your mouth it is tuppence or a series of that sum, that is extracted from you. It more than takes the place of the five cent piece in America or the threepenny bit in the British possessions.

Tuppence is as much as a fairly well to do worker can afford for his meal at midday. In the poorer restaurants that sum gets him two slices and a big mug, or three slices and a little mug, or a portion of cake and a drink, or a fried egg, slice and small mug, or a sausage with mash or bread, or a rasher of bacon. In the next higher class everything drinkable is twopenny per cup, while pastry, pies, etc., are the same sum per head. At the "popular"—i. e., "no gratuities"—restaurants the waiters expect a tuppenny tip (though it is advertised otherwise by the proprietors), and the non-tipper has a bad time. At most cafes tipping is the usual thing, and tuppence is expected and is accepted with the servile bow and pleased expression that distinguish the English and continental waiter upon such occasions.

The tuppenny tube is well known. You deposit that sum, and you get in anywhere and get out anywhere else you please. On trolley cars and buses that amount will carry you for an hour or two very often, usually to the terminus. The railroad porter who carries your rug a few yards or who says "Yus" when you ask if the train has stopped always has his hand out for the usual fee, though he will carry your two large bags and whatever else you have for half a mile over high

 'Awkins." "Do you," queried counsel,
 "spell your name with or without an
 H?" The emphatic answer was,
 "J-o-h-n." As a rule, however, as we
 have said, variety in the spelling of
 the names of people, as in that of the
 names of places, owes its origin to
 people not being so clear as was our
 friend regarding how a name should
 be spelled.

Two stories in illustration of this
 occur to us. In the first Mrs. Quiver-
 ful was having christened her latest
 baby. The old minister was a little
 deaf. "What name did you say?" he
 queried. "I said," replied the mother,
 with some asperity, "Hannah." "Do
 you," said the other, "mean Anna or
 Hannah?" "Look 'ere," exclaimed the
 now thoroughly exasperated lady, "I
 won't be hexamined in this way. I
 mean 'Haiteh-hay-hen-hen-hay-haiteh'-
 Hannah!"

The second incident to which we re-
 fer is this. Here also there was "a
 lady in the case." She was on an er-
 rand, and she had to deal with the
 name of another party. In brief, she
 had bought a pair of sleeve links for
 her fiancé when the shopman asked,
 "Any initials, miss?" The rest may be
 stated thus:

She—Oh, yes; I forgot. Engrave a
 "U" upon them for his first name.

Shopman—Pardon me, is it Uriah or
 Ulysses? Names with "U" are rare,
 you know.

She (proudly)—His name is Eugene.—
 London Globe.

LIGHTS FOR THE
BUSINESS DISTRICT

City Council is Making Prepara-
 tions to Furnish Lights Dur-
 ing Shut Down

TWO PLANS ARE IN VIEW

Will Secure Current of Northern
 Pacific or Use Car Line
 Power Plant

Alderman Baker authorizes THE
 DISPATCH to assure the business men
 of Brainerd that arrangements will be
 made to furnish the business houses
 with light during the shut down at the
 dam. It will therefore be unnecessary
 for any business men to go to the ex-
 pense of providing other methods of
 lighting their places of business.

Negotiations are under way to secure
 the necessary current from the North-
 ern Pacific shops to take care of the
 downtown district, including day cur-
 rent for motors. If this cannot be
 done one of the dynamos will be moved
 to the power house of the old street car
 line, near the dam, which is owned by
 Mr. C. N. Parker, and his steam power
 plant, which is standing there complete,
 will be utilized to furnish power for the
 dynamos.

This action on the part of the city
 council is wise and will be appreciated.
 While it is inconvenient to use kero-
 sene for the private houses there is no
 such outlay involved nor such loss suf-
 fered as when the business section is
 deprived of lights and those dependent
 on motors for power are deprived of
 current. The arrangements will include
 current during the day for the benefit
 of the users of motors.

CONFIRMED PROOF

Residents of Brainerd Cannot Doubt
 What has Been Twice
 Proved

In gratitude for complete relief from
 aches and pains of bad backs—from dis-
 tressing kidney ills—thousands have
 publicly recommended Doan's Kidney
 Pills. Residents of Brainerd, who so
 testified years ago, now say their cures
 were permanent. This testimony dou-
 bly proves the worth of Doan's Kidney
 Pills to Brainerd kidney sufferers.

James Parker, carpenter, of 124 N.
 E. 2nd Ave., Brainerd, Minn., says:
 "Every winter since I had the gripe I
 was unable to shake off its effects.
 My back commenced to pain me across
 the kidneys with a numb sort of aching
 which I felt always over the lame spot,
 even when lying in bed. I was always
 troubled with headache which I think
 arose from my kidneys. I got a box of
 Doan's Kidney Pills and used them.
 Since then I have been in much better
 health, have no more attacks of head-
 ache, no more backache and I regard it
 as quite wonderful that any remedy
 could bring about such a change."

On October 18, 1904, six years after
 Mr. Parker made the above statement,
 the testimony was confirmed by Mrs.
 Parker, she said: "Mr. Parker's state-
 ment was true in every particular, and
 we both feel that Doan's Kidney Pills
 can be relied upon to cure every form
 of kidney trouble. We are always glad
 to advise sufferers to go to H. P. Dunn's
 drug store for Doan's Kidney Pills and
 give them a trial."

For sale by all dealers. Price 50
 cents. Foster-Milburn Co., Buffalo,
 New York, sole agents for the United
 States.

Remember the name—Doans—and
 take no other.

THE "TUPPENCE" HABIT.

It Has a Firm Grip on London and
 Its Inhabitants.

Tuppence—meaning, of course, two-
 pence and equal to the sum of 4 cents
 in United States currency—is the domi-
 nating sum in London. It is as much
 an institution as the war debt, beer or
 the game of cricket. Wherever you
 go, whatever you do, whatever you
 sell or whenever you open your mouth
 it is tuppence or a series of that sum,
 that is extracted from you. It more
 than takes the place of the five cent
 piece in America or the threepenny
 bit in the British possessions.

Tuppence is as much as a fairly well
 to do worker can afford for his meal
 at midday. In the poorer restaurants
 that sum gets him two slices and a
 big mug, or three slices and a little
 mug, or a portion of cake and a drink,
 or a fried egg, slice and small mug, or
 a sausage with mash or bread, or a
 rasher of bacon. In the next higher
 class everything drinkable is twopence
 per cup, while pastry, pies, etc., are
 the same sum per head. At the
 "popular"—i. e., "no gratuities"—res-
 taurants the waiters expect a tuppenny
 tip (though it is advertised other-
 wise by the proprietors), and the non-
 tipper has a bad time. At most cafes
 tipping is the usual thing, and tuppence
 is expected and is accepted with the
 servile bow and pleased expression
 that distinguish the English and con-
 tinental waiter upon such occasions.

The tuppenny tube is well known.
 You deposit that sum, and you get in
 anywhere and get out anywhere else
 you please. On trolley cars and buses
 that amount will carry you for an hour
 or two very often, usually to the ter-
 minus. The railroad porter who car-
 ries your rug a few yards or who says
 "Yus" when you ask if the train has
 stopped always has his hand out for
 the usual fee, though he will carry
 your two large bags and whatever else
 you have for half a mile over high

FOUND TRUE REMEDY

H. P. Dunn Sure Mi-o-na Will Cure Indigestion

The incalculable amount of good that Mi-o-na stomach tablets are doing in Brainerd, in making sick and even despairing people well, should compel the attention of every judicious person who is out of health with stomach troubles.

The underlying cause of nervous debility, headaches, sleeplessness and melancholy is faulty nutrition, the result of a weakened stomach and inactive bowels.

So long as the stomach is weak the tissues cannot assimilate proper nourishment, no matter how much food is eaten. Mi-o-na increases the strength and activity of the muscular walls of the stomach, regulates the bowels and makes the blood capable of conveying nutriment to all the vital organs.

The use of Mi-o-na stomach tablets makes all the difference between a tired, nervous, sluggish condition, a weakened stomach, and a healthy, energetic bodily condition.

In no other way can you so quickly, so readily and so positively stimulate the stomach to good health as by using Mi-o-na. The fact that this remedy is sold by H. P. Dunn under a guarantee to refund the money unless it cures, shows conclusively its superiority over ordinary, old-fashioned digestives.

THE FIRE FIEND GOT VERY BUSY

Department was Called Out Three Times in Few Hours Tuesday Evening

ONE AMOUNTED TO LITTLE

Warehouse Owned by O. A. Finnis and Residence of John Feucht Guttered

The fire fiend got busy Tuesday evening and kept the fire boys on the go for several hours at an unpleasant gait. The first alarm was turned in about 7 o'clock and was caused by flames in the warehouse just west of Hessel's implement store. The building, which is owned by O. A. Finnis, was occupied by Brockway & Parker as a warehouse for baled hay and other stuff. The hay was ruined and what other stuff was in the building was badly damaged if not ruined, while the building is badly damaged. The cause of the fire is unknown.

While the firemen were at work at the Finnis fire an alarm was turned in for a small blaze in a chicken house on the premises occupied by Con O'Neil, 919 Grove street. The children of the family had installed a small air tight stove in the coop to keep the chickens warm. It did so, in fact roasted some of them. It is not known whether the stove exploded as the air tight stoves are so prone to do or whether the piping was defective, as the building which was about six by eight feet in size and five feet high, was wrapped in flames when discovered. All surrounding buildings were covered with snow and there was no need of calling the firemen away from the Finnis fire but some one got hysterical and turned in an alarm.

About ten o'clock an alarm was turned in from East Brainerd, the fire being in the residence of John Feucht, 424 Second avenue, Northeast. Mr. Feucht was in the twin cities at the time, and the family, it is said, were over town attending a meeting of the Modern Brotherhood of America. The fire is supposed to have caught from a heating stove. When the fire was extinguished the fire boys found the stove, which was a soft coal burner, with fire still in it and no doors, they evidently having been blown off. It is thought that gas must have accumulated and exploded. The stove pipe was also down when discovered. The building is practically a total loss as are most of the household goods of Mr. Feucht.

The loss to the building was probably \$250 to \$300 and Brockway & Parker suffered a loss of probably \$50. This was at one time covered by insurance but Mr. Parker stated last night that he did not know whether it had expired or not. The loss on the chicken house of Mr. O'Neil was probably \$20.

The fire boys state that they do not want another such a strenuous night as they had Tuesday night. On the way home from the East Brainerd fire Artie White fell down and his clothes were frozen so stiff that he could not get up alone to save his life and the other firemen had to help him to his feet.

How to Avoid Pneumonia

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. H. P. Dunn. mwf d w

Disturbed the Congregation

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar. H. P. Dunn. mwf d w

A MISTAKE MADE

Antony Nolan Says Bill Turned for Hauling Rock to Dam Included Other Work

Antony Nolan, one of the two men who hauled rock from the city to the dam some time ago, the cost of which has been severely criticized, was in the city clerk's office this morning when a Dispatch representative was there and stated to the clerk that the street commissioner had apparently turned in the labor account in such a manner as to cause a misunderstanding. Mr. Nolan declares that the time reported as for hauling stone was in fact more than half of it in the case of his own team, occupied in hauling brush and manure for the dam and that Mr. Bender also put in considerable time hauling brush and manure instead of hauling the rock referred to.

Beware of Ointments for Catarrh that Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

MEETINGS CLOSE TONIGHT

Both Episcopalians and Y. M. C. A. Close Series of Successful Meetings Tonight

The series of meetings held at St. Paul's Episcopal church close this evening with a meeting addressed by Rev. Irving P. Johnson, pastor of Gethsemane church, Minneapolis. There will be two communion services held tomorrow morning, one at 7 o'clock and one at 9 o'clock. The meetings held here under the leadership of Rev. Mr. Johnson and Rev. S. S. Kilbourne have been very successful and Rev. Mr. Alten and the members of the church are much encouraged by the outlook.

Mr. W. E. Fenno, the Y. M. C. A. evangelist, held his last noonday meeting at the Northern Pacific shops today there being over one hundred shop men present and much interest manifested. Mr. Fenno closes his work in this city this evening, when he will address a meeting at the Y. M. C. A. building, taking as his subject "Our Great Leader." Mr. Fenno's meetings have been very successful, despite the fact that they were interrupted a couple of days last week by his illness. Mr. Fenno leaves tomorrow noon for Fargo where he will hold a series of meetings under the auspices of the Y. M. C. A.

How to Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. H. P. Dunn. mwf d w

MUSIC AND DRAMA

Strongheart

Ralph Stuart, whose popularity has made his annual visits to this city an event of interest to theatre-goers, will be seen here Friday, February 7, in his latest success, "Strongheart," a play of college life by Wm. C. DeMille. As Strongheart, Mr. Stuart will be seen in a role unlike any in which he has previously appeared; in fact, this is the first instance in which a collegebred Indian has been selected as the dominant figure of a drama. The author has selected an equally unusual environment for his four acts, Columbia university. He has pictured college life as we know it today, redolent of youth, bubbling over with breeziness, tender with sentiment. He has introduced as an excitingly dramatic episode in the play, a football game, the result of which forms an important part in the development of the story.

Simple Remedy for Lagrippe

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. H. P. Dunn. mwf d w

COLDEST NIGHT YET

Tuesday Night was by Far the Coldest of the Winter—Mercury Reaching 40 Below

Tuesday night was easily the coldest night of the present season. At 8 o'clock this morning the thermometer north of the hose house registered 35 degrees below zero and it was at least 40 below earlier in the morning it is said. Reports from up the Minnesota & International are that the mercury stood at 35 below at International Falls and 42 below at Bemidji and Ten Strike. The temperature has been raising slowly all day and according to government weather predictions will continue to rise.

Conductor Bush, who brought in the Minnesota & International passenger train reports it much colder than the agents reported. He states that passengers said it was 47 below at International Falls and that at Bemidji at 8:20 the thermometer was frozen up at 42. It was certainly cold enough.

A Card

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe, coughs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. H. P. Dunn. mwf d w

The Privilege of Age.

One of the few advantages of increasing years lies in the consciousness that we shall one day be able to give advice instead of receiving it. No one would dare advise a man of fifty unless it might be his wife, in which case he would not listen to her, while the person who would think of advising a woman of forty does not exist.—London Ladies' Field.

An insidious Danger

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. H. P. Dunn. mwf d w

TO-NIGHT

Packed houses last week was the result of the beautiful new series of pictures now being shown at this popular play house, and the first three days of this week will be no exception to the rule. The following program will be rendered: "The Miser Hoard," "Sleepy Head," "The Tulips," "French Sailors Life," "Restful Ride."

DAME RUMOR.

RAILWAY POSITIONS

GUARANTEED—We want 200 able-bodied young men to take a short course of instruction in Telegraphy and Railroad at our school and for whom we will secure positions at telegraph operators and agents as soon as course is completed. Easy to learn. Good salary. Write for free Catalog. THOMPSON'S RAILWAY COLLEGE, Minneapolis, Minn.

Gentleman is from the French "gentilhomme" and means one who belongs to the gens, or stock. In old Roman law gens-men, or gentlemen, were those only who had a family name, were born of free parents, had no slave in their ancestral line and had never been degraded to a lower rank.

Pains of the Aged ARE OVERCOME.

Almost daily we hear of people of advanced years whose pains and aches have been overcome, and whose life has been made more comfortable by the use of Dr. A. W. Chase's Kidney and Liver Pills.

Because the liver, kidneys and bowels become sluggish in action, poisonous waste matter is left in the blood, and this brings the pains and aches, the stiff joints, lame back and rheumatism.

Dr. A. W. Chase's Kidney and Liver Pills

Help most promptly and cure most thoroughly on account of their direct and combined action on liver, kidneys and bowels. They are the most popular medicine the famous Receipt Book author ever introduced, and are guaranteed by his portrait and signature on the box. One pill a dose, 25 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Mr. Sylvester Pappert, 117 South Main St., Shenandoah, Pa., states: "For twenty years I was troubled with constipation and kidney troubles, and could get no relief; since using Dr. A. W. Chase's Kidney and Liver Pills the pains and aches have gone, the action of the kidneys is normal and the bowels regular."

FOUND TRUE REMEDY

H. P. Dunn Sure Mi-o-na Will Cure Indigestion

The incalculable amount of good that Mi-o-na stomach tablets are doing in Brainerd, in making sick and even despairing people well, should compel the attention of every judicious person who is out of health with stomach troubles.

The underlying cause of nervous debility, headaches, sleeplessness and melancholy is faulty nutrition, the result of a weakened stomach and inactive bowels.

So long as the stomach is weak the tissues cannot assimilate proper nourishment, no matter how much food is eaten. Mi-o-na increases the strength and activity of the muscular walls of the stomach, regulates the bowels and makes the blood capable of conveying nutriment to all the vital organs.

The use of Mi-o-na stomach tablets makes all the difference between a tired, nervous, sluggish condition, a weakened stomach, and a healthy, energetic bodily condition.

In no other way can you so quickly, so readily and so positively stimulate the stomach to good health as by using Mi-o-na. The fact that this remedy is sold by H. P. Dunn under a guarantee to refund the money unless it cures, shows conclusively its superiority over ordinary, old-fashioned digestives.

THE FIRE FIEND GOT VERY BUSY

Department was Called Out Three Times in Few Hours Tuesday Evening

ONE AMOUNTED TO LITTLE

Warehouse Owned by O. A. Finnis and Residence of John Feucht Gutted

The fire fiend got busy Tuesday evening and kept the fire boys on the go for several hours at an unpleasant gait. The first alarm was turned in about 7 o'clock and was caused by flames in the warehouse just west of Hessel's implement store. The building, which is owned by O. A. Finnis, was occupied by Brockway & Parker as a warehouse for baled hay and other stuff. The hay was ruined and what other stuff was in the building was badly damaged if not ruined, while the building is badly damaged. The cause of the fire is unknown.

While the firemen were at work at the Finnis fire an alarm was turned in for a small blaze in a chicken house on the premises occupied by Con O'Neil, 919 Grove street. The children of the family had installed a small air tight stove in the coop to keep the chickens warm. It did so, in fact roasted some of them. It is not known whether the stove exploded as the air tight stove are so prone to do or whether the piping was defective, as the building which was about six by eight feet in size and five feet high, was wrapped in flames when discovered. All surrounding buildings were covered with snow and there was no need of calling the firemen away from the Finnis fire but some one got hysterical and turned in an alarm.

About ten o'clock an alarm was turned in from East Brainerd, the fire being in the residence of John Feucht, 424 Second avenue, Northeast. Mr. Feucht was in the twin cities at the time, and the family, it is said, were over town attending a meeting of the Modern Brotherhood of America. The fire is supposed to have caught from a heating stove. When the fire was extinguished the fire boys found the stove, which was a soft coal burner, with fire still in it and no doors, they evidently having been blown off. It is thought that gas must have accumulated and exploded. The stove pipe was also down when discovered. The building is practically a total loss as are most of the household goods of Mr. Feucht.

The loss to the building was probably \$250 to \$300 and Brockway & Parker suffered a loss of probably \$50. This was at one time covered by insurance but Mr. Parker stated last night that he did not know whether it had expired or not. The loss on the chicken house of Mr. O'Neil was probably \$20.

The fire boys state that they do not want another such a strenuous night as they had Tuesday night. On the way home from the East Brainerd fire Artie White fell down and his clothes were frozen so stiff that he could not get up alone to save his life and the other firemen had to help him to his feet.

How to Avoid Pneumonia

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. H. P. Dunn. mwfdw

Disturbed the Congregation

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar. H. P. Dunn. mwfdw

A MISTAKE MADE

Antony Nolan Says Bill Turned for Hauling Rock to Dam Included Other Work

Antony Nolan, one of the two men who hauled rock from the city to the dam some time ago, the cost of which has been severely criticized, was in the city clerk's office this morning when a Dispatch representative was there and stated to the clerk that the street commissioner had apparently turned in the labor account in such a manner as to cause a misunderstanding. Mr. Nolan declares that the time reported as for hauling stone was in fact more than half of it in the case of his own team, occupied in hauling brush and manure for the dam and that Mr. Bender also put in considerable time hauling brush and manure instead of hauling the rock referred to.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c, per bottle. Take Hall's Family Pills for constipation.

MEETINGS CLOSE TONIGHT

Both Episcopalians and Y. M. C. A. Close Series of Successful Meetings Tonight

The series of meetings held at St. Paul's Episcopal church close this evening with a meeting addressed by Rev. Irving P. Johnson, pastor of Gethsemane church, Minneapolis. There will be two communion services held tomorrow morning, one at 7 o'clock and one at 9 o'clock. The meetings held here under the leadership of Rev. Mr. Johnson and Rev. S. S. Kilbourne have been very successful and Rev. Mr. Altan and the members of the church are much encouraged by the outlook.

Mr. W. E. Fenno, the Y. M. C. A. evangelist, held his last noonday meeting at the Northern Pacific shops today there being over one hundred shop men present and much interest manifested. Mr. Fenno closes his work in this city this evening, when he will address a meeting at the Y. M. C. A. building, taking as his subject "Our Great Leader." Mr. Fenno's meetings have been very successful, despite the fact that they were interrupted a couple of days last week by his illness. Mr. Fenno leaves tomorrow noon for Fargo where he will hold a series of meetings under the auspices of the Y. M. C. A.

How to Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. Orino Laxative Fruit Syrup cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels. Orino Laxative Fruit Syrup does not nauseate or grip and is mild and pleasant to take. Refuse substitutes. H. P. Dunn. mwfdw

MUSIC AND DRAMA

Strongheart

Ralph Stuart, whose popularity has made his annual visits to this city an event of interest to theatre-goers, will be seen here Friday, February 7, in his latest success, "Strongheart," a play of college life by Wm. C. DeMille. As Strongheart, Mr. Stuart will be seen in a role unlike any in which he has previously appeared; in fact, this is the first instance in which a collegebred Indian has been selected as the dominant figure of a drama. The author has selected an equally unusual environment for his four acts, Columbia university. He has pictured college life as we know it today, redolent of youth, bubbling over with reboziness, tender with sentiment. He has introduced as an exciting dramatic episode in the play, a football game, the result of which forms an important part in the development of the story.

Simple Remedy for Lagrippe

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. H. P. Dunn. mwfdw

COLDEST NIGHT YET

Tuesday Night was by Far the Coldest of the Winter—Mercury Reaching 40 Below

Tuesday night was easily the coldest night of the present season. At 8 o'clock this morning the thermometer north of the hose house registered 35 degrees below zero and it was at least 40 below earlier in the morning it is said. Reports from up the Minnesota & International are that the mercury stood at 35 below at International Falls and 42 below at Bemidji and Ten Strike. The temperature has been raising slowly all day and according to government weather predictions will continue to rise.

Conductor Bush, who brought in the Minnesota & International passenger train reports it much colder than the agents reported. He states that passengers said it was 47 below at International Falls and that at Bemidji at 8:20 the thermometer was frozen up at 42. It was certainly cold enough.

A Card

This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures la grippe, coughs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. H. P. Dunn. mwfdw

The Privilege of Age.

One of the few advantages of increasing years lies in the consciousness that we shall one day be able to give advice instead of receiving it. No one would dare advise a man of fifty unless it might be his wife, in which case he would not listen to her, while the person who would think of advising a woman of forty does not exist.—London Ladies' Field.

An Insidious Danger

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's disease and diabetes. H. P. Dunn. mwfdw

TO-NIGHT

Packed houses last week was the result of the beautiful new series of pictures now being shown at this popular play house, and the first three days of this week will be no exception to the rule. The following program will be rendered: "The Miser Hoard," "Sleepy Head," "The Tulips," "French Sailors Life," "Restful Ride."

Pictured Melodies by Vivian Reilly

RAILWAY POSITIONS

GUARANTEED—We want 200 able-bodied young men to take a short course of instruction in Telegraphy and Railroad work at our school and for whom we will secure positions at telegraph operators and agents as soon as course is completed. Easy to learn. Good salary. Write for free Catalog. THOMPSON'S RAILWAY COLLEGE, Minneapolis, Minn.

Gentleman is from the French "gentilhomme" and means one who belongs to the gens, or stock. In old Roman law gens-men, or gentlemen, were those only who had a family name, were born of free parents, had no slave in their ancestral line and had never been degraded to a lower rank.

Pains of the Aged ARE OVERCOME.

Almost daily we hear of people of advanced years whose pains and aches have been overcome, and whose life has been made more comfortable by the use of Dr. A. W. Chase's Kidney and Liver Pills.

Because the liver, kidneys and bowels become sluggish in action, poisonous waste matter is left in the blood, and this brings the pains and aches, the stiff joints, lame back and rheumatism.

Dr. A. W. Chase's Kidney and Liver Pills

Help most promptly and cure most thoroughly on account of their direct and combined action on liver, kidneys and bowels. They are the most popular medicine the famous Receipt Book author ever introduced, and are guaranteed by his portrait and signature on the box. One pill a dose, 25 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

Mr. Sylvester Pappert, 117 South Main St., Shenandoah, Pa., states: "For twenty years I was troubled with constipation and kidney troubles, and could get no relief, since using Dr. A. W. Chase's Kidney and Liver Pills the pains and aches have gone, the action of the kidneys is normal and the bowels regular."

ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits
the sale of alum
baking powder—

So does France
So does Germany

The sale of alum foods
has been made illegal in Washington and the District of Colum-
bia, and alum baking powders are everywhere recognized as
injurious.

To protect yourself against alum,
when ordering baking powder,

Say plainly—

ROYAL BAKING POWDER

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape
Cream of Tartar. It adds to the digestibility and whole-
someness of the food.

BIG TWO OCEAN NAVY

Best Method of Avoiding War,
Claims Justice Harlan.

DOES NOT EXPECT ONE SOON.

But It May Come Unexpectedly, Be-
lieves Supreme Court Jurist, if Na-
tion Is Not Prepared—Thinks All
Our Seaports Should Be Made Strong

Justice John Marshall Harlan's talk at the recent Navy league dinner in Washington, when he prophesied a war some time between the white and yellow races which would "shake the earth" and at the same time entered a vigorous plea for immediate and substantial increase of the navy, has aroused the widest interest in Wash- ington, says a special dispatch to the New York Times.

It has not been possible to obtain a full stenographic report of what Justice Harlan said, and he declines to be quoted in further explanation of his views. It is possible, however, to give in substance an outline of some of the views of the justice.

He believes it to be of paramount importance to make immediate and extensive preparation for war, not because he apprehends the occurrence of war with any nation, but because he believes that in the most efficient preparation for it lies the best method of avoiding it.

This thorough preparation, in his opinion, involves the creation of a great two ocean navy, and if he had his way he would, as he said at the Navy league dinner, vote \$50,000,000 a year for ten years for the construction of battleships and the general equip- ment of the navy. In his view it is not only necessary to increase materi- ally the number of fighting ships, but to see that from year to year others are constructed to take the places of those which are outgrown in point of fighting ability by the advance in na- val construction.

He believes that a nation which is weak in martial spirit or which has not a strong navy is in danger of being forced into war when it is not de- sired and when the nation is least able to meet such an emergency. The Amer- ican people are not for conquest, he says, and do not want war. There is no territory that they desire, and the probable fact is that they have more now than they desire. They would have rejected emphatically the Philip- pines as a gift; but, having assumed the responsibility for them as an act of war, they are bound to live up to that responsibility and discharge the duty it imposes on them by affording the islands the fullest protection.

In conjunction, therefore, with his belief in the obligation to build ships he holds that it is the duty of the country to fortify thoroughly every seaport under the American flag and make it impregnable. War comes sud- denly, he says, and from the most peaceful outlook it may develop before it is possible to make preparations or even build a battleship, much less a navy.

As he views the general outlook for the United States there is no nation with which we are in any prospect of having war. But that does not impair the obligation of the country to make ready for the unforeseen emergency. President McKinley strove to his ut- most to prevent war with Spain, but in spite of him it came and in less time from the moment when it was first suggested than it takes to con- struct even one of the smallest naval vessels.

Although Justice Harlan believes that the time is coming when there will be a gigantic contest for suprema- cy between the white and yellow races, he does not apprehend that the struggle is at all imminent. When it does come, he wants the United States to be thoroughly ready, and one of the first elements of preparation, in his opinion, is the creation and mainte- nance of a great two ocean navy.

Animals and Music.

Tarantulas do not dance to the sound of the violin, but let the people they bite do the dancing. Scorpions, how- ever, enjoy fiddling, according to the Westminster Gazette, and lizards go crazy for music of any kind. As for serpents, the bon constrictor and py- then are senseless to melody, but the cobra is fascinated by the flute and still more by the fiddle. Polar bears enjoy the violin; so do ostriches. Wolves will stop in the chase to listen to a cornet. Elephants are fond of the flute, especially the upper notes. Tig- ers, while appreciating violin and flute, cannot stand the harmonicon, while the musical seal shows no emo- tion on hearing any instrument, not even the bass drum.

Right to the Point.

It was five minutes before noon. The mayor and the state superintendent had spent an hour talking to the chil- dren in an Ohio school, and just be- fore the stroke of the gong the chair- man of the local school committee was called upon to follow them with an ad- dress.

"Children," he said, pointing toward the window, "as you go out from the school in about two minutes you will see a gang of men who are now shovel- ing cinders into a railway train. They are earning \$35 a month.

"Beside them is a timekeeper earn- ing \$55.

"At the head of the train is an en- gineer getting \$100, and over him is a superintendent getting \$200.

"What is the difference between those men? Education. Get all you can of it."—Youth's Companion.

BRYAN HOLDS RECEPTION.

Greets Senators and Representatives
in Hall of Senate Chamber.

Washington, Jan. 29.—In a window recess in the wide hall of the senate chamber and within half a dozen paces of the room of the senate committee on finance, William J. Bryan held an impromptu reception for senators and representatives for an hour.

The committee on finance was en- gaged in consideration of the Aldrich financial measure. As Mr. Bryan came along from the house talking animated- ly with a couple of congressmen, word was passed to the Democrats of the finance committee and Senator Bailey and Senator Teller emerged and greet- ed the Nebraskan. Retiring to the window niche, an animated discussion took place between Senator Bailey and Mr. Bryan, with Senator Teller offer- ing an occasional suggestion and Rep- resentatives Hardy and Randall of Texas and Hon. James Kerr, a promi- nent Pennsylvania Democrat, as listen- ers.

As Mr. Bryan said later, the discus- sion was about the Democratic view of the currency question. Both Mr. Bryan and Senator Bailey said there had been very little difference of opinion. Both stood for the direct government issue of money instead of an issue through the banks. Mr. Bryan would make no statement as to whether he approved the plan of Senator Bailey as outlined in the sub- stitute he will offer for the Aldrich bill, but he said that its basis was good Democratic doctrine brought down from the times of Jefferson.

A PRESENT DAY UTOPIA.

Moore's Island, the Happiest and Fair-
est Spot on Earth.

Hugo Parton, writing in the Outlook Magazine, says that the happiest and most beautiful spot on earth today is the island of Moorea, one of the Society islands, in the south seas. As a con- trast to strenuous American methods this description sounds alluring:

"Whenever you are thirsty a word will send a little brown body scam- bling up a tall palm tree trunk, and in two minutes a green cocoanut is ready for you to quaff—the nectar of the Poly- nesian gods. It is worth the trip down here to eat the native 'vitals' for you get at every meal things you never tasted before, and each seems better than its predecessor; to see your din- ner of fresh water shrimps, sharks' fins and roasted sea urchins. The ban- annas you eat—there are eleven varie- ties—baked, raw, fried, dried—grow a few rods back in the valley; ditto the breadfruit, the pineapples and about everything else on the board. It's nice to have your morning coffee grown in the back yard. Guavas grow in such profusion they are used as pig food. grated cocoanut is fed to hens, while sensitive plant is considered excellent fodder for cattle.

"For perfection of the human body the Tahitian is unexcelled. If, indeed, he is anywhere equalled. They are a large race, both men and women being noticeably taller and more fully de- veloped than Anglo-Saxons. I doubt if any Society islander ever went through a whole day in his life without having a wreath of flowers on his head or a blossom behind his ear. The love of flowers is innate with man, woman and child. They can't pass through a patch of woods without emerging with a gar- land. Every gay mood calls for flow- ers on their hats, in their hair, behind their ears, and their life is an almost unbroken sequence of gay moods. Scarcely a native on the island of Moorea can speak a sentence of Eng- lish, but every one you meet greets you with a courteous smile and the wel- coming word 'la-ora-na' (Yorana!)."

THE ART OF JUGGLING.

It Demands Much Hard Work and Un-
limited Patience.

"To be a successful juggler it is neces- sary to possess infinite patience. Some tricks require such long and continuous practice that unless a man possessed great patience and unlimited powers of perseverance he would despair of ever being able to perform them," says Paul Cinquevalli in the St. Louis Post-Dispatch. "Take a trick, for example, like balancing a tall glass on four straws placed on the forehead. It looks easy enough, but it took me years of prac- tice before I could do it. While I am balancing the glass I also juggle with five hats at the same time. I never, as a matter of fact, see the hats. They are handed to me by my assistant, and I then set them going, but the whole time my eyes are fixed on the straws upon which the glass is balanced. If I took my eyes from the straws for a hundredth part of a second their bal- ance would be upset. I know instinc- tively where the hats are all the time and know exactly where each hat is when I put out my hand to catch it.

"It took me close on eight years' practice before I was able to balance two billiard balls on top of each other and then balance the two on a billiard cue. I started practicing it an hour a day, as a rule. After a couple of years' practice one night I woke up, having dreamed that I had performed it. I got up, rushed downstairs and be- gan to practice with my cue and two billiard balls, and at the first attempt I balanced them. About five years later I performed the feat in public.

"For the cannon ball trick I first used a wooden ball weighing just one pound. I caught it on the wrong place and was knocked senseless, but I kept on prac- ticing until I found out how to do it. Now I use an iron ball weighing sixty pounds. If I didn't catch the ball on the right place on the back of my neck it would kill me, but there is no chance of my making a mistake."

NEW COMPLICATION.

Enters into Receivership Proceedings
at Chicago.

Chicago, Jan. 29.—A new complica- tion entered into the receivership pro- ceedings against the Chicago and Mil- waukee Electric railroad company and against A. C. Frost & Co. when a third receivership was asked for by the rail- road company for the Republic Con- struction company of Chicago. The hearing on the petition for the third receivership was continued by Judge Grosscup of the United States circuit court until Jan. 31. The Republic Construction company, whose manage- ment and financial interests are said to be closely related to those of the Chicago and Milwaukee Electric com- pany, was the company that began the construction of the road from Lake Bluff, Ill., to Milwaukee in 1905. The construction company in an answer filed simultaneously with the petition for a receiver, admits its financial em- barrassment and its inability to com- plete the road. It also admits a debt of \$300,000 to the railroad company.

An emphatic protest against the re- ceivership for the Chicago and Mil- waukee Railroad company was made during the day by Charles G. Dawes in a telegram from Washington to Judge Grosscup. Mr. Dawes was made arbitrator in the dispute over the road's finances which resulted in the first receivership proceedings on New Year's eve. In his telegram he said that he was greatly surprised that the action should have been taken with- out his having been notified.

He protested against the appoint- ment of Mr. Frost as a receiver, de- claring that such appointment did not seem to him proper.

EDITORIAL ASSOCIATION.

Arrangements for National Conven-
tion at St. Paul Completed.

Washington, Jan. 29.—The execu- tive committee of the National Edi- torial association met and completed arrangements for the convention, which meets in St. Paul Aug. 17. Twenty- seven states were represented at the meeting. After the convention the members of the association will go to Minneapolis and Duluth and then to Brandon and Winnipeg, Man., and will take a look at the Canadian Rockies from the porch of the hotel at Banff. They will return to St. Paul in time to attend the state fair, which opens Sept. 4.

Accused of Looting a Bank.

Enid, Okla., Jan. 29.—The Alva Bank of Commerce, with \$10,000 cap- ital stock, has closed and Cashier Lou Westfall is missing. He is charged by the directors with looting the institu- tion of practically all its deposits. The depositors will lose nothing, the di- rectors declare.

TELEGRAPHIC BREVITIES.

Francois Marie Benjamin Richard, cardinal and archbishop of Paris, is dead of congestion of the lungs after a short illness.

Richard Millett, who lived alone on his farm near Hawarden, Ia., was burned to death in a fire that de- stroyed his home.

At Philadelphia, "Packy" McFarland of Chicago and Young Loughrey fought six rounds. McFarland had the ad- vantage throughout.

L. H. Cahoon fell from the Minneap- olis and St. Louis bridge over the Little Cottonwood river near Searles, Minn., and was instantly killed.

Sam Morrill, who lived on a farm near Granite Falls, Minn., committed suicide while mentally deranged, by shooting himself with a revolver.

Secretary Taft has left Washington for Cleveland to attend the McKinley day banquet of the Tippecanoe club, at which he is expected to make an ad- dress.

The Billboard.

A certain playwright who has grad- uated from the press agent academy stood in front of a Broadway billboard one day in a driving rain and sadly contemplated the moist, pasty wreck of a once lovely lithograph.

"You can never get away from the business you were brought up in," he said. "Honestly, it hurts me almost as much to see that wreck of a three sheet as it would to see one of my plays fail. To this day I never wake up on a rainy morning without my first thought being as I look out of the window, 'There'll be a lot of good paper down by night.' It's the agent's instinct. You can never outgrow it."—New York Sun.

"Pardon me," said Ascum, "but it must be tough to be married to a strong minded woman."

"Oh," replied Henpeck, "it has its advantages. When my wife thinks she hears burglars downstairs, she won't trust me to go down and investi- gate."—Philadelphia Press.

Mrs. Winslow's Soothing Syrup

Has been used for over SIXTY-FIVE YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES the CHILD, SOFTENS the GUMS, SALVAGES ALL PAIN, CURES WIND COLIC and is the best remedy for DIARRHOEA. Sold by Druggists in every part of the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle. Guaranteed under the Food and Drug Act, June 30th, 1906. Serial Number 1008. A AN OLD AND WELL TRIED REMEDY.

ENGLAND SAYS NO ALUM IN FOOD

and strictly prohibits
the sale of alum
baking powder—

So does France
So does Germany

The sale of alum foods
has been made illegal in Washington and the District of Colum-
bia, and alum baking powders are everywhere recognized as
injurious.

To protect yourself against alum,
when ordering baking powder,

Say plainly—

ROYAL BAKING POWDER

and be very sure you get Royal.

Royal is the only Baking Powder made from Royal Grape
Cream of Tartar. It adds to the digestibility and whole-
someness of the food.

PAID TEN DOLLARS FOR HIM

St. Louis Woman Now Wants to Give
Her Husband Away.

St. Louis, Jan. 29.—Mrs. Rosa Adler of this city had been wondering since Sunday what had become of her recently-wedded husband until she found the following note he had pinned to a pair of trousers:

"I have gone away to San Francisco, because I had no work. You used to bother me. The money and jewelry I took you can have if you come to San Francisco. You need not be afraid for your money. If you come to San Francisco I will be the boss."

Mrs. Adler mournfully stated that the money and jewelry mentioned represented a value of \$500. According to Mrs. Adler's statement she bought Reuben Adler from Morris Grab, a clothing proprietor, for \$10.

"I went to Morris' store and he

showed me a picture of a man," said Mrs. Adler. "I gave Morris \$10 and took Reuben and we were married. Reuben said he needed some money to look for a job and I fixed up my bank account so he could draw some. Now he is gone and so is my money and jewelry. I don't want Reuben back. I want to give him away, but I do want my money and jewelry." And then she wept.

Noted Minnesota Jurist Dead.

Albert Lea, Minn., Jan. 29.—After a struggle of many months Hon. John A. Lovely, formerly a member of the supreme court of the state, passed quietly away, surrounded by his wife, son, daughter and near friends. Judge Lovely was sixty-four years old on Nov. 18, last, and had resided here since 1867, except during the time he was in St. Paul serving as an associate justice of the supreme court.

Treasures Found in Our American Forests.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers of this and other countries. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce, of Buffalo, N. Y., believes that our American forests abound in medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them, and, in confirmation of this conviction, he points with pride to the most marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action.

The reason why "Golden Medical Discovery" cures these and many other affections is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

To aid in healing old sores, or ulcers, apply Dr. Pierce's All-Healing Salve to them while taking the "Golden Medical Discovery" to purify and enrich the blood. Dr. Pierce's All-Healing Salve is cleansing and pain relieving. It destroys the bad odors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating, Sores or Ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have the "All-Healing Salve" in stock mail 50 cents in postage stamps to Dr. R. V. Pierce, Buffalo, N. Y., and you will receive it by return post.

In treating all open sores, or ulcers, boils, carbuncles and other swellings, it is important that Dr. Pierce's Golden Medical Discovery be taken persistently to purify the blood and thereby remove the cause of the trouble. It is in the blood that the great battle of health has to be fought. The ulcer and the sore are simply the scarlet flowers of disease, with roots running down into the blood. These roots must be eradicated or the disease will break out afresh. "Golden Medical Discovery" cleanses the blood of all foul and poisonous accumulations, pushes out the dead and waste matter, and thus purifies the entire life current. Disease in the flesh must die out when it is no longer fed by foul blood. "Golden Medical Discovery" effectively cures disease in the flesh by curing its cause in the blood.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus

and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines and physicians had failed.

Nursing mothers and over-burdened women in all stations of life, whose vigor and vitality may have been undimmed and broken-down by overwork, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating, restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable in sustaining their strength and promoting an abundant nourishment for the child. Expectant mothers too will find it a priceless boon to prepare the system for baby's coming and rendering the ordeal comparatively painless. It can do no harm in any state, or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress low down in the abdomen, or from painful or irregular monthly periods, gnawing or distressed sensation in stomach, dizzy or faint spells, see imaginary specks or spots floating before eyes, have disagreeable pelvic catarrhal drain, prolapsus, anteversion or retroversion or other displacements of womanly organs, from weakness of parts, will, whether they experience many or only a few of the above symptoms, find relief and a permanent cure by using faithfully, and fairly persistently, Dr. Pierce's Favorite Prescription.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

BIG TWO OCEAN NAVY

Best Method of Avoiding War,
Claims Justice Harlan.

DOES NOT EXPECT ONE SOON.

But It May Come Unexpectedly, Believes Supreme Court Jurist, if Nation Is Not Prepared—Thinks All Our Seaports Should Be Made Strong

Justice John Marshall Harlan's talk at the recent Navy league dinner in Washington, when he prophesied a war some time between the white and yellow races which would "shake the earth" and at the same time entered a vigorous plea for immediate and substantial increase of the navy, has aroused the widest interest in Washington, says a special dispatch to the New York Times.

It has not been possible to obtain a full stenographic report of what Justice Harlan said, and he declines to be quoted in further explanation of his views. It is possible, however, to give in substance an outline of some of the views of the justice.

He believes it to be of paramount importance to make immediate and extensive preparation for war, not because he apprehends the occurrence of war with any nation, but because he believes that in the most efficient preparation for it lies the best method of avoiding it.

This thorough preparation, in his opinion, involves the creation of a great two ocean navy, and if he had his way he would, as he said at the Navy league dinner, vote \$50,000,000 a year for ten years for the construction of battleships and the general equipment of the navy. In his view it is not only necessary to increase materially the number of fighting ships, but to see that from year to year others are constructed to take the places of those which are outgrown in point of fighting ability by the advance in naval construction.

He believes that a nation which is weak in martial spirit or which has not a strong navy is in danger of being forced into war when it is not desired and when the nation is least able to meet such an emergency. The American people are not for conquest, he says, and do not want war. There is no territory that they desire, and the probable fact is that they have more now than they desire. They would have rejected emphatically the Philippines as a gift; but, having assumed the responsibility for them as an act of war, they are bound to live up to that responsibility and discharge the duty it imposes on them by affording the islands the fullest protection.

In conjunction, therefore, with his belief in the obligation to build ships he holds that it is the duty of the country to fortify thoroughly every seaport under the American flag and make it impregnable. War comes suddenly, he says, and from the most peaceful outlook it may develop before it is possible to make preparations or even build a battleship, much less a navy.

As he views the general outlook for the United States there is no nation with which we are in any prospect of having war. But that does not impair the obligation of the country to make ready for the unforeseen emergency. President McKinley strove to his utmost to prevent war with Spain, but in spite of him it came and in less time from the moment when it was first suggested than it takes to construct even one of the smallest naval vessels.

Although Justice Harlan believes that the time is coming when there will be a gigantic contest for supremacy between the white and yellow races, he does not apprehend that the struggle is at all imminent. When it does come, he wants the United States to be thoroughly ready, and one of the first elements of preparation, in his opinion, is the creation and maintenance of a great two ocean navy.

Animals and Music.

Tarantulas do not dance to the sound of the violin, but let the people they bite do the dancing. Scorpions, however, enjoy fiddling, according to the Westminster Gazette, and lizards go crazy for music of any kind. As for serpents, the boa constrictor and python are senseless to melody, but the cobra is fascinated by the flute and still more by the fiddle. Polar bears enjoy the violin; so do ostriches. Wolves will stop in the chase to listen to a cornet. Elephants are fond of the flute, especially the upper notes. Tigers, while appreciating violin and flute, cannot stand the harmonicon, while the musical seal shows no emotion on hearing any instrument, not even the bass drum.

Right to the Point.

It was five minutes before noon. The mayor and the state superintendent had spent an hour talking to the children in an Ohio school, and just before the stroke of the gong the chairman of the local school committee was called upon to follow them with an address.

"Children," he said, pointing toward the window, "as you go out from the school in about two minutes you will see a gang of men who are now shoveling cinders into a railway train. They are earning \$35 a month."

"Beside them is a timekeeper earning \$55."

"At the head of the train is an engineer getting \$100, and over him is a superintendent getting \$200."

"What is the difference between those men? Education. Get all you can of it."—Youth's Companion.

BRYAN HOLDS RECEPTION.

Greets Senators and Representatives in Hall of Senate Chamber.

Washington, Jan. 29.—In a window recess in the wide hall of the senate chamber and within half a dozen paces of the room of the senate committee on finance, William J. Bryan held an impromptu reception for senators and representatives for an hour.

The committee on finance was engaged in consideration of the Aldrich financial measure. As Mr. Bryan came along from the house talking animatedly with a couple of congressmen, word was passed to the Democrats of the finance committee and Senator Bailey and Senator Teller emerged and greeted the Nebraskan. Retiring to the window niche, an animated discussion took place between Senator Bailey and Mr. Bryan, with Senator Teller offering an occasional suggestion and Representatives Hardy and Randall of Texas and Hon. James Kerr, a prominent Pennsylvania Democrat, as listeners.

As Mr. Bryan said later, the discussion was about the Democratic view of the currency question. Both Mr. Bryan and Senator Bailey said there had been very little difference of opinion. Both stood for the direct government issue of money instead of an issue through the banks. Mr. Bryan would make no statement as to whether he approved the plan of Senator Bailey as outlined in the substitute he will offer for the Aldrich bill, but he said that its basis was good Democratic doctrine brought down from the times of Jefferson.

A PRESENT DAY UTOPIA.

Moore's Island, the Happiest and Fairest Spot on Earth.

Hugo Parton, writing in the Outing Magazine, says that the happiest and most beautiful spot on earth today is the island of Moorea, one of the Society islands, in the south seas. As a contrast to strenuous American methods this description sounds alluring:

"Whenever you are thirsty a word will send a lithe brown body scrambling up a tall palm tree trunk, and in two minutes a green cocoanut is ready for you to quaff—the nectar of the Polynesian gods. It is worth the trip down here to eat the native 'vitals,' for you get at every meal things you never tasted before, and each seems better than its predecessor: to see your dinner of fresh water shrimps, sharks' fins and roasted sea urchins. The bananas you eat—there are eleven varieties—baked, raw, fried, dried—grow a few rods back in the valley; ditto the breadfruit, the pineapples and about everything else on the board. It's nice to have your morning coffee grown in the back yard. Guavas grow in such profusion they are used as pig food. grated cocoanut is fed to hens, while sensitive plant is considered excellent fodder for cattle."

"For perfection of the human body the Tahitian is unexcelled. If, indeed, he is anywhere equalled. They are a large race, both men and women being noticeably taller and more fully developed than Anglo-Saxons. I doubt if any Society islander ever went through a whole day in his life without having a wreath of flowers on his head or a blossom behind his ear. The love of flowers is innate with man, woman and child. They can't pass through a patch of woods without emerging with a garland. Every gay mood calls for flowers on their hats, in their hair, behind their ears, and their life is an almost unbroken sequence of gay moods. Scarcely a native on the island of Moorea can speak a sentence of English, but every one you meet greets you with a courteous smile and the welcoming word 'la-ora-na' (Yorana)."

THE ART OF JUGGLING.

It Demands Much Hard Work and Unlimited Patience.

"To be a successful juggler it is necessary to possess infinite patience. Some tricks require such long and continuous practice that unless a man possessed great patience and unlimited powers of perseverance he would despair of ever being able to perform them," says Paul Cinquevalli in the St. Louis Post-Dispatch. "Take a trick, for example, like balancing a tall glass on four straws placed on the forehead. It looks easy enough, but it took me years of practice before I could do it. While I am balancing the glass I also juggle with five hats at the same time. I never, as a matter of fact, see the hats. They are handed to me by my assistant, and I then set them going, but the whole time my eyes are fixed on the straws upon which the glass is balanced. If I took my eyes from the straws for a hundredth part of a second their balance would be upset. I know instinctively where the hats are all the time and know exactly where each hat is when I put out my hand to catch it."

"It took me close on eight years' practice before I was able to balance two billiard balls on top of each other and then balance the two on a billiard cue. I started practicing it an hour a day, as a rule. After a couple of years' practice one night I woke up, having dreamed that I had performed it. I got up, rushed downstairs and began to practice with my cue and two billiard balls, and at the first attempt I balanced them. About five years later I performed the feat in public."

"For the cannon ball trick I first used a wooden ball weighing just one pound. I caught it on the wrong place and was knocked senseless, but I kept on practicing until I found out how to do it. Now I use an iron ball weighing sixty pounds. If I didn't catch the ball on the right place on the back of my neck it would kill me, but there is no chance of my making a mistake."

NEW COMPLICATION.

Enters into Receivership Proceedings at Chicago.

Chicago, Jan. 29.—A new complication entered into the receivership proceedings against the Chicago and Milwaukee Electric railroad company and against A. C. Frost & Co. when a third receivership was asked for by the railroad company for the Republic Construction company of Chicago. The hearing on the petition for the third receivership was continued by Judge Grosscup of the United States circuit court until Jan. 31. The Republic Construction company, whose management and financial interests are said to be closely related to those of the Chicago and Milwaukee Electric company, was the company that began the construction of the road from Lake Bluff, Ill., to Milwaukee in 1906. The construction company in an answer filed simultaneously with the petition for a receiver, admits its financial embarrassment and its inability to complete the road. It also admits a debt of \$300,000 to the railroad company.

An emphatic protest against the receivership for the Chicago and Milwaukee Railroad company was made during the day by Charles G. Dawes in a telegram from Washington to Judge Grosscup. Mr. Dawes was made arbitrator in the dispute over the road's finances which resulted in the first receivership proceedings on New Year's eve. In his telegram he said that he was greatly surprised that the action should have been taken without his having been notified.

He protested against the appointment of Mr. Frost as a receiver, declaring that such appointment did not seem to him proper.

EDITORIAL ASSOCIATION.

Arrangements for National Convention at St. Paul Completed.

Washington, Jan. 29.—The executive committee of the National Editorial association met and completed arrangements for the convention, which meets in St. Paul Aug. 17. Twenty-seven states were represented at the meeting. After the convention the members of the association will go to Minneapolis and Duluth and then to Brandon and Winnipeg, Man., and will take a look at the Canadian Rockies from the porch of the hotel at Banff. They will return to St. Paul in time to attend the state fair, which opens Sept. 4.

Accused of Looting a Bank.

Enid, Okla., Jan. 29.—The Alva Bank of Commerce, with \$10,000 capital stock, has closed and Cashier Lou Westfall is missing. He is charged by the directors with looting the institution of practically all its deposits. The depositors will lose nothing, the directors declare.

Henry B. Harris, Manager
"The Lion and the Mouse" Co.
Presents

Ralph Stuart

In the greatest theatrical
achievement of modern times

"Strongheart"

The Great College Play

To adequately describe this delightful play one must have an artistic command of superlatives combined with exact choice of word and phrase. The most remarkable play presented within a generation.

Parquet.....\$1.50
First 3 rows Circle..\$1.50
Last 3 rows Circle..\$1.00
Balcony.....\$1.00
Gallery.....50c

The Billboard.

A certain playwright who has graduated from the press agent academy stood in front of a Broadway billboard one day in a driving rain and sadly contemplated the moist, pasty wreck of a once lovely lithograph.

"You can never get away from the business you were brought up in," he said. "Honestly, it hurts me almost as much to see that wreck of a three sheet as it would to see one of my plays fail. To this day I never wake up on a rainy morning without my first thought being as I look out of the window, 'There'll be a lot of good paper down by night.' It's the agent's instinct. You can never outgrow it."—New York Sun.

"Pardon me," said Ascum, "but it must be tough to be married to a strong minded woman."

"Oh," replied Henpeck, "it has its advantages. When my wife thinks she hears burglars downstairs, she won't trust me to go down and investigate."—Philadelphia Press.

Mrs. Winslow's Soothing Syrup

Has been used for over SIXTY YEARS by MILLIONS OF MOTHERS for their CHILDREN WHILE TEETHING, with PERFECT SUCCESS. When in St. Paul stop at

MALONEY HOTEL

James F. Maloney, Prop.

Cor. Jackson

& Eighth St.

The prices please, 50c. 75c, and 1.00 per day, European plan

We want you to take home a bottle of 1-24-8 Whiskey. It is a good thing to have a bottle of pure whiskey in the house as besides being good medicinally it is pleasing to have a drop of really pure liquor before you retire or when there is a little gathering of your friends.
